FOURTH EDITION.

INCORPORATED 1884.

460 ACRES.

CAPITAL STOCK, \$100,000.

PRICE LIST

OF

Fruit & Ornamental Trees

SMALL FRUITS,

EVERGREENS, ROSES, ETC.

OF THE

California Nursery Co.

NILES, ALAMEDA CO., CALIFORNIA.

Season of 1888-'89. • Sept. 1st, 1888.

LOCATION,

One-half Mile North of Niles Station,
Central Pacific Railroad.

TELEPHONE CONNECTION FROM STATION TO OFFICE.

SAN FRANCISCO, CAL.
BACON & COMPANY, BOOK AND JOB PRINTERS,
508 Clay and 509 Sansome Streets.

PRICE LIST
OF
Fruit and Ornamental Trees,
SMALL FRUITS,
EVERGREENS, ROSES, ETC.
OF THE
CALIFORNIA NURSERY CO.

NILES, ALAMEDA Co., CALIFORNIA.

SEASON OF 1888-'89. : SEPT. 1ST, 1888.

TO CORRESPONDENTS.

1st. The articles on the following list will be furnished at the annexed prices *only* when the quantity specified shall be taken. FIVE HUNDRED will be furnished at the THOUSAND rate, FIFTY at the HUNDRED rate, and FIVE at the TEN rate.

2d. All orders should be sent in as early as possible, as it will be our rule to execute them in the order in which they are received.

3d. All orders should be legibly written out on a separate sheet, and not mixed up in the body of the letter, thereby saving us a great deal of trouble, and tending to prevent mistakes.

4th. Where particular varieties are ordered, and particular ages and sizes of trees, kind of stock, etc., it should be stated whether, and to what extent, substitution will be allowed, in case the order cannot be filled to the letter, as happens occasionally in all establishments. Where no instructions in this respect accompany the order, we shall feel at liberty to substitute other varieties as nearly similar as possible. If the selection of varieties is left entirely to us, we shall endeavor to send only such sorts as are acknowledged to give general satisfaction.

5th. All trees and plants are carefully labeled and securely packed in the best manner, for which a moderate charge, sufficient to cover cost of material only, will be made ; but no charge is made for the delivery of packages at the railroad or express offices at Niles.

6th. It is requested that explicit directions for marking and shipping packages accompany each order. When it is left to us to choose the mode of conveyance, we will exercise our best judgment ; but as all articles are at the risk of the purchaser after being shipped, we must not be held responsible for any loss or delay that may occur through the negligence of the forwarders.

7th. As we guarantee the freight on all shipments leaving our establishment, it will be necessary for unknown parties to remit the money with their orders. Orders to be sent by express, C.O.D., must be accompanied by at least one-half the amount in cash ; otherwise they will receive no attention.

8th. Our customers are requested to notify us immediately of any errors that may be committed in filling their orders, so that we may at once rectify the same, as we desire to conduct our business in all respects satisfactorily to those who favor us with their confidence.

9th. All orders from unknown correspondents must be accompanied by the cash or satisfactory reference.

10th. Remittances may be made by draft or post office order on San Francisco, Wells, Fargo & Company's money order on Niles, or cash by express, prepaid.

11th. Small packages, not exceeding four pounds in weight, may be sent by mail, at an additional charge of one cent for two ounces.

All communications to be addressed to

CALIFORNIA NURSERY COMPANY,

Niles, Alameda County, Cal.

SPECIAL NOTICE.

¶ We are not responsible for any one representing himself to be our agent. Those only who can show a certificate of recent date, with our signature and the seal of the company attached, are authorized to solicit orders for us. We make these remarks, as we know it has heretofore been the practice of unprincipled persons to surreptitiously procure the catalogues and certificates of agency of prominent nurseries, and take orders in their names, which they fill with poor stock bought elsewhere. If our patrons will notify us of any person whom they have reason to believe is not a regularly appointed agent, we shall consider it a favor, and shall deal with the offending party as he deserves.

GUARANTEE OF GENUINENESS.

While we exercise the greatest care and diligence to have all our trees, etc., true to the label, and hold ourselves in readiness, on proper proof, to replace all such trees, etc., that may prove untrue to label, free of charge, or to refund the amount paid, it is mutually understood and agreed to between purchasers and ourselves, that our guarantee of genuineness shall in no case make us *liable* for any sum greater than that originally paid us for said trees; etc., that prove untrue.

REMARKS.

WE TAKE PLEASURE in again submitting to the consideration of our friends and the public generally our **Price List** for the coming season, feeling certain of our ability to please all kindly favoring us with their orders.

OUR STOCK up to the present date has made an unusually good growth, and is absolutely free from all injurious insects, diseases, and defects.

OUR ASSORTMENT of varieties is complete in every class, and embraces everything both in the **Fruit** and **Ornamental** departments most worthy of cultivation.

A CORDIAL INVITATION to visit our grounds is extended to all.

OUR NURSERY can be reached from **San Francisco** by boats leaving **Market Street Wharf**, and connecting with trains for **Niles** at 7:30, 9:00, 10:30, and 12:00 A. M., and 3:00 and 4:30 P. M. From **Sacramento** and all points north and south by train leaving **Sacramento** at 11:20 A. M. From **San Jose** and its southern connections by trains leaving there at 6:40, 7:35, 8:45, 10:35 A. M., and at 12:45 and 5:45 P. M.

Very truly,

California Nursery Co.

Sept. 1st, 1888.

HINTS ON TRANSPLANTING.

The many excellent treatises on Fruit Culture which have appeared within the last few years—one or more of which should be in the hands of every person intending to plant—render it almost unnecessary to give any directions in that line; yet we are so frequently asked for advice in this way, that we have concluded to offer a few general remarks.

The situation of the orchard having been decided on, the ground should be deeply plowed, subsoiled, and thoroughly pulverized. The holes should be dug at least a foot larger in every direction than actually required by the roots, when spread out in their natural position. In planting, the top soil should be broken down into the hole and worked carefully in between every root and fibre, filling up every crevice, that every root may be in contact with soil, and the whole made quite firm as the filling up progresses. The tree, when planted, may, in light soils, stand from two to three inches deeper than it stood in the nursery; but in heavy clay or wet ground it is advisable to have it stand at the same height as it was before transplanting.

On account of our long, hot, dry summers, we have found it beneficial to shade the sunny side of the tree with a board or shake, stuck in the ground a few inches away from it, for the first two or three years. The tops should be shortened in more or less, in proportion to size and variety of tree and condition of roots.

RULE.—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill; which, divided into the number of feet in an acre, (43,560) will give the number of plants or trees to the acre.
